### **Accessibility Standards**

We aim to follow recognized accessibility best practices, including the Web Content Accessibility Guidelines (WCAG) 2.2 Level AA, where reasonably achievable.

Our accessibility efforts include consideration of:

- Clear, readable text and organized content
- Appropriate color contrast and visual presentation
- Alternative text for meaningful images
- Keyboard navigation and accessible website functionality
- Compatibility with assistive technologies, including screen readers
- Responsive design for various devices and screen sizes
- Clear navigation, headings, and links

While we work toward these standards, we recognize that some areas of our website may not yet be fully accessible.

### **Ongoing Improvements**

Accessibility is an ongoing effort. We periodically review our website and make improvements as technology, accessibility guidelines, and user needs evolve.

Certain third-party applications, embedded content, or external websites may have accessibility limitations beyond our direct control.

### **Need Assistance?**

If you experience difficulty accessing any part of our website, encounter an accessibility barrier, or need information in an alternative format, please contact us.

We welcome feedback and will make reasonable efforts to address accessibility concerns and provide the information or assistance you need.
